EXCURSION TONIGHT

The steamer Homer Smith will rue one of its very popular excursions from this city tonight, the boat leaving Maysville at 8 o'clock. This excursion promises to be one of the hest run by the boat this season as the weather has warmed up considerably In the past several days. The proprietors of the boat say that Maysville ls one of the best excursion towns on the Ohlo River and they can always feel assured of a crowd from this city. The numerous attractions on board the bost bring out the crowds and coupled with the splendid order mainalned make the Smith one of the best execursion boats on the entiro river.

BUSINESS CONTINUES CAUTIOUS BUT BRISK

Business as a whole the country over continues very good, the reviewers say in their weekly letters covering the past week. According to the Henry Clews letter, April bank clearings were over 30 per cent, heavier than a year ago, part of this rise being due to higher prices. In a few lines there is moderate showing down, due to economy, to conservation ereated by war, also to greater caution in extending eredit to industries working upon a highly inflated

In other lines, however, there has been a perceptible speeding up and a more intense activity than at any time since the war. This is especially true of the steel industry, where orders are being placed right into 1918 and even 1919. The demand for steel munitions, railroad equipment shipbuilding materials, etc., is extremely argent and heavy. In copper, oil and other industries, there is also unchecked activity and no reaction in sight, demand far exceeding *upply.

As an illustration of business development, the April new incorporations in the Eastern States of concerns with a capital of \$100,-000 or over, aggregated \$439,000,000, compared with \$224,000,000 a year ago; while the total from January 1st aggregates \$1,170,000,-000, as against \$898,000,000 for the same period in 1916. In the State alone, new corporations with a capitalization of \$1,000,000 or over. amounted to \$306,000,000 in April.

There has been extraordinary activity in petroleum development, the total anthorizations of new capital since the first of Janvary being estimated at \$212,000,000; while since the beginning of the war the total authorized new capital in this field of industry has run up to the enormous total of \$751,000,000. Another new and highly important field of development has been that of shipping. The new companies of that class organized during the last few months have amounted to over \$70,000,000, making a total of \$180,-000,000 since the war began.

"The one unsatisfactory feature to be noted," says the author ity quoted, "is the food ontlook. This country undoubtedly faces a scarcity, especially when the urgency of helping feed our Allies is eonsidered. Last year's short crops, the backward season, exhausted reserves and the foreign demand, all combined create a serious chairman of the Agriculture commiseituation. Efficient government regulation will, no doubt, be helpful in moderating the crisis, and present high prices should stimulate a big acreage, though the shortage of labor which withdrawals er Federal agencies, and to avoid com- ed to Helglum, up to \$475,000,000. for the army will aggravate complicate a critical situation.

"Food economy is absolutely essential, but the largest possible output is the only solution possible, and it remains to be seen wether government regulation or high prices will prove the surest cure. Perhaps both will be heeessary. For American farmers a year of would have the salary of a calinet commission. It is understood that great prosperity is ahead, since they can count upon good prices for officer. the largest products within their utmost reach." -

How is the average consumer to know which merchant can serve the family vest? Not everyone can be an expert judge of from keeping time. the value of fabrics and foods. Most people have to take these things somewhat on faith.

The advertising in the home newspaper furnishes the public with the best guide among the pitfalls of retail trade. The man who has enterprise and ambition enough to advertise, has enterprise and ambition enough to make a thorough study of his product, to reach out for the best bargains, and supply goods at moderate prices. Also he must have faith in his goods, or he would not spend money to back them up.

Dr. Dumba should take lessons in urbanity from Count Bernstorff. Because he was found out, the good doctor is still sore. CELEBRATED FIFTIETH WED-DING ANNIVERSARY

The Rev. Dr. W. C. Condit and wife celebrated the fiftleth anniversary of terdny morning on a business trip to their marriage at their home in Ash- Huntington, W. Va. land, Ky., Monday, May 14. An Invltation was extended to all of their friends to an informal party at their home to celebrate the anniversary. Dr. Condit is perhaps one of the best known Presbyterlan ministers in the state and is well known in Maysville. He has been the pastor of the Ashland Church for fifty-one years, going there only a few months before his marrlage. His many Maysville friends extend hearty congratiuations to him

We produce the following which was read by Dr. Condit from the pulplt of the Presbyterlan church Sunday:

"Monday, May 14th, will be the fiftieth anniversary of the marriage of your pastor and his wife. Such an occasion is a time when we would gather family and friends to rejolee together. And so feeling that you are all bound to us both, by ties of warm necetion we would be glad to Wednesday Night, May 16 welcome at our home Monday afternoon or evening any of you or any others of our friends who are not with us this morning to rejeice with us.
